

NEUROLOGY

PHILOSOPHY

Our highly experienced, fellowship-trained, board-certified pediatric neurologists provide nationally recognized, family-centered care and offer 12 disease-focused multidisciplinary programs, with multiple subspecialists working together to improve the quality of life for children and their families.

WHAT WE TREAT

- Brain tumors and tumors of the spine and nervous system
- Cerebral palsy, spasticity
- Concussion
- Developmental delays
- Down syndrome
- Epilepsy and seizures—including infantile spasms and infantile epileptic encephalopathies
- Head injuries, traumatic brain injuries (TBI) and spine trauma
- Headaches
- Movement disorders
- Muscular dystrophy and muscle diseases
- Neuroimmunologic and demyelinating disorders
- Neurovascular and stroke
- Sleep disorders
- Spina bifida
- Spinal dysraphism
- Tics and Tourette syndrome
- Tuberous sclerosis, neurofibromatosis and other neurocutaneous syndromes

PROGRAMS

- Comprehensive Epilepsy Program—certified as Level 4 by National Association of Epilepsy Centers (NAEC)
 - Epilepsy Surgery Program
 - Multidisciplinary Ketogenic Diet Program
 - Tuberous Sclerosis Alliance Comprehensive Clinic
 - Dravet Syndrome Foundation Comprehensive Care Center
- Multidisciplinary Neuro-oncology clinic
- Concussion Program
- Neurocritical NICU and PICU

SERVICES

- Routine EEGs—one-hour studies—for seizure/spell diagnosis
- Long-term continuous video EEG monitoring is performed for seizure/spell classification; evaluation for epilepsy surgery; monitoring for status epilepticus; neonatal seizures
- Polysomnography with or without epilepsy monitoring
- Neuroradiology
- PET scan
- EMG and nerve conduction studies
- Evoked potentials, including intraoperative recording
- Integrated pharmacy services, medication monitoring and participation in drug trials
- MRI and MRA, transcranial doppler, cranial ultrasound
- Co-occurring multidisciplinary clinic with the Thompson Autism and Neurodevelopmental Center

VOALTE®
